

Wednesday, May 23rd, 6pm-7pm

2018/2019 Kindergarten Orientation

This evening is a special opportunity to bring your soon to be "kindergarten child" out to experience a glimpse of what kindergarten will be like. Teachers will present a snapshot of what you can expect for your child's learning in kindergarten through hands on centers. (Please do not bring siblings if possible).

We will have Rocky View Learning Specialists in attendance for you to speak with: Speech Language Pathologist (SLP), Occupational therapist (OT), Family Oriented Programming Sessions (FOPS) personal.

At this time, due to fluctuating registrations, we will not be sending out our letters to indicate AM or PM placement, as we may need to add another class due to increasing student numbers.
