

# Grade 4 Technology

## Technology Trivia

Technology and 21st Century Learning have become a key part of education today. Rocky View Schools supports teachers and students with ample technology and excellent resources for our 21st Century Learners. Thanks to our fundraising committee and the support of our community, each class has their own iPads, one for every student. They are used every day in many different ways. Our Grade 4's have discovered that an iPad is a valuable learning tool. Google Drive is one the

most exciting apps the students are using. It provides them with their own space to start and save their work and collaborate simultaneously with any student or teacher in RVS.

Did you know iPads are used.....

- as a camera
- *as a dictionary when reading?*
- *as a calculator in math?*
- *to look up a map?*
- *to be creative in learning?*
- *as a book?*
- *to collect and organize student work?*
- *to support leaning French*

Some of the Apps we are Using in Grade Four:

iMovie

RAZ-Kids

Mathletics

Google Drive

**Take some time to talk with your children about the ways they are using technology in the classroom and some of the very creative ways they are able**

### Tools for Learning

Our students are fortunate to have access to technology to enhance their learning. The many Apps available for the iPads have allowed students to progress as 21st Century Learners. All Grade Four classrooms also have access to a class set of Chromebook computers, Ipad microscopes and Robotics.
